

RANGE AND MARKET NEWS

Items of Interest Pertaining to the Live Stock Industry in Arizona—Market for the Past Week.

Cotin Campbell & Co., dipped their buck band last week.

Sliker & Metz shipped 600 head of lambs to Kansas City Monday night. John Metz went along with them.

Barney Higgins foreman of W. H. Campbell's cattle outfit of Ash Fork sustained a serious injury last Friday by having a horse fall back on him.

Mr DeCamp, the Colorado cattle buyer has contracted for 1000 head of yearlings, two and three-year-olds at 3 cents delivered here, of Morris Smith, Alf Dickinson, Frank Owenby & Sons, "Dutch" Dickinson. The stuff will be shipped to LeMars, Colorado, and is to be delivered by October 1st.

Kansas City Stock Yards, Aug. 2.—Last week was more satisfactory to cattle sellers than the previous week, as receipts were very much smaller. Substantial gains were secured the first of the week, and while most of these were dissipated before the close of the week, the average for the week was 10 to 20 cents above average for the previous week. The run today is 14,000 head, including 20,00 calves, which is below the estimate for today, and is lighter for this period. The market is strong to 10 higher today, late sales strongest, and unless unusual runs come in later in the week, the market is likely to be pretty good the balance of this week. The run of quarantine is only about half as heavy as it was a month ago, and shippers from native territory this month will not be relieved of the burden of competition from cheap grass cattle from the south to a great extent. Another feature favorable to the market is the more settled safety of the corn crop, and a the rapidly developing demand for stock and feeding cattle, which will reach huge proportions this fall. Fancy yearlings last week at \$7.65, prime heavy steers worth up to \$7.25. Kansas grass steers today at \$4.40 to \$6.10, grass cows and heifers \$3.00 to \$4.50, calves 50 to 75 cents cheaper than a week ago, top veals \$6.75, stock steers \$3.25 to \$4.75, feeders \$4.00 to \$5.00, stock cows and heifers \$2.25 to \$3.75.

Sheep and lambs had an unprofitable week of it, and closed 25 to 50 cents off, account of glutted meat markets in the East. Dealers figure that the bottom has been reached, as the conditions that have hurt the market, namely, big runs of southern stuff at Louisville and Jersey City, will change within a week or two, affording some relief. Another strong prospect is the surety of an unprecedented call for stock and feeding grades this fall. Top lambs are quotable at \$7.00 or a little more, wethers and yearlings up to \$5.25, ewes \$5.00. Utah feeding wethers are selling at \$4.50 to \$4.75, a big string at the former figure Thursday, feeding lambs around \$5.75, breeding ewes most any price up to \$5.75, according to age and quality. Arizona is still furnishing a fair quota, and Utah is starting a small number marketward, but bulk of the supply is still small mixed lot of natives, which buyers abominate.

Here's a little story about shoes. A normal foot is shaped like a letter V—ever see any shoes that shape, of course not, that's why you have that bunion; that's why your little toe curls up and tries to crawl over your foot—well we've tried a long time to have shoes made to fit your foot. Last week we got 'em, good plain calf shoes, no cap, at \$3.00. Got a line of boy's shoes too and there dandies. We can put 3 months on the life of your boy's shoes at about 75 cents less money.
